

# THE LITTLE BLACK BOOK

FAVOURITE HAUNTS OF STYLISH PEOPLE

Twelve years ago, **Saheba Singh**, floated *This Is It Designs* to weave together her dreams. Over the years, she has created a niche for herself in the interior decor of restaurants in Delhi

**Olive Bar & Kitchen** is a universal brunch favourite among Delhiites. I love the vibe and the fact that on any given Sunday, everyone there knows everyone.

In terms of decor, **Buddha Bar, Dubai** has impressed me the most. The sheer scale of the space and the way they have managed to make different layouts and operations seamlessly flow from one to another is commendable. Love the energy of the place.

These days I'm juggling between two **Jimmy Choos** and a Tods. One of my Jimmy Choos is a classic and is discontinued now, so I take special care of it. It is my favourite.

I love **Victoria Beckham** and Angelina Jolie for the kind of effortless style they have. It's never fussy or blindly trendy. They make their look work for them in an admirable way.

I am a big fan of cuff bracelets and I pick up most of them from Pout, a store I designed myself. They have some unique statement pieces. I also pick up a lot of rings and necklaces from Pout and **Curio Cottage**.

In Delhi/NCR, it's definitely one of my own — **Farzi Café**. I think it is one of our best works and I swear by the food there.

Dubai is great place to shop. My last trip there was with the girls and we raided everything in the malls. Bought some particularly nice cocktail dresses from **Marciano**. One is a long gold one which I'm dying to wear!
